Director of Planning, Building and Code Enforcement Joe Horwedel responded to brief questions and agreed to return in one month with more information. Mayor Reed indicated that he would like to see the information in a matrix format. Councilmember Chirco requested that staff outline the different types of legislation that impacts development.

Action: The Committee approved the recommendation.

**5. Accept Status Report on Citywide Inclusionary Policy Outreach. (Housing)**

Documents Filed: Memorandum from Director of Housing Leslye Krutko, dated October 8, 2008, submitting the status report.

Director of Housing Leslye Krutko presented a progress report on the Housing Department's outreach efforts in formulating a proposed citywide inclusionary housing policy.

Public Comment: Reverend Sal Alvarez urged broader outreach to the Spanish-speaking and interfaith communities. Jennifer Rodriguez (Homebuilder's Association) asserted that the development community is being censored and that it appears that a decision about the ordinance has already been made. She urged the Committee to direct staff to give developers a chance to share their concerns by putting less structure on the agendas for community meetings.

Discussion regarding outreach followed. Mayor Reed suggested the community meetings be bi-lingual and well promoted. Councilmember Constant suggested locations that will ensure participation especially in Districts 1, 5 and 10. He also expressed concern that there is not sufficient time in the schedule outlined in the staff report to get adequate input. He argued that staff is not following the Council's direction and urged consideration of other studies and alternatives.

Action: The Committee accepted the status report, asked staff to incorporate suggestions by Mayor Reed regarding outreach, and encouraged the public to participate in the development of the policy.

**6. Exploring Transportation Innovations to Support High-Density, Transit-Oriented Development. (Mayor/Liccardo/Chirco)**

Documents Filed: Memorandum from Mayor Reed and Councilmembers Liccardo and Chirco dated October 9, 2008 recommending a work plan assessment.

Director of Planning, Building and Code Enforcement Joe Horwedel and Director of Transportation James R. Helmer jointly summarized the staff's response and agreed to return in 90 days with a work plan. Committee questions followed regarding "Eco Pass" use by City employees, transit use by large employers and development, and the concept of "congestion pricing".

Public Comment: David Wall called the proposal an incongruent approach and suggested that without on-site parking, people will be forced to park on the street which will lead to blight. He urged the Committee to address long term parking needs for high density housing projects.

Action: The Committee approved the work plan, as amended: 1) survey City employees about use of the "Eco Pass" to predict use by private employers if offered the incentive; 2) consider if a minimal token "buy-in" (as opposed to free) would affect use; 3) look at developments that are using the "Eco Pass"; and 4) examine issues around "congestion pricing". Staff was also directed to return with a status update by the end of year.
